

MASTER series Salinity Refractometer MASTER-S10M

This instrument is designed to control the concentration of saltwater, such as in cooking or rinsing seafood, and utilizes a new material that is durable against salty and acidic samples. The MASTER-S10M is a good alternative choice when the water resistant feature is not a priority and the Temperature Compensation will be carried out manually.

Model	MASTER-S10M	Cat.No.	2473
Scale range	Sodium chloride 0.0 to 10.0%	Minimum Scale	Sodium chloride 0.1%
Optional	* Calibration Certificate : Contact an ATAGO representative for details.		
Parts	Milky White Daylight Plate For MASTER series : RE-2471-56M		
Size & Weight	3.2x3.4x20.3cm, 105g	USA Suggested List Price	

Design Registration No.000379326-0001, 000379326-0002 (EU)
